International Wing Chun Organization

31st December 2011

Dear IWCO Students,

Happy New Year!!! On the last day of 2011, I would like to say a few words on behalf of International Wing Chun Organization.

Continued with the momentum of 2010, IWCO has been kept growing rapidly and dynamically in 2011. Added to the school in Russia and Ukraine, we have schools set up in other former USSR countries such as Lithuania, Kazakhstan ... etc. On top of this, schools at Dubai of UAE and Stockholm of Sweden were set up and growing very well.

IWCO kept actively taking part in international competition. In April, we attended the European Wushu Competition held in Estonia. Our school's result is encouraging, 2 gold medals, 1 silver medal and 1 bronze medal were awarded. We shall take part the "2012 Ip Man Cup World Wing Chun Invitational Tournament" held in Foshan in mid January to let our students gaining more experience and exposure. Talking about competition, IWCO organized the first inter-IWCO schools competitions in May this year in St Petersburg. More than 200 students from 22 cities took part in this competition. We shall hold more competitions to gain friendly exchange experience and test the practicality of skills learnt in the coming years.

The grading system of IWCO is well accepted by our students. More than 300 students across Europe had taken the grading examinations. Over 60 seminars range from beginner seminar to advanced Mui Fa Joang and referee seminars were successfully held in different countries.

IWCO had organized a special event this year. The Headquarters school had organized a Wing Chun team to attend the Oxfam Trail Walkers for poverty. We have raised HK\$13,396.10 for Oxfam. IWCO is more participative and caring the society.

Lastly, I would like to take this opportunity to wish you a happy and very prosperous year of 2012, good health and all your wishes come true. Most importantly, keep excelling your Wing Chun skill.

Yours sincerely,

Donald Mak
Chairman
